

## Corporate Partnerships and Workforce Development

### **Want to learn about computer hardware and earn an industry recognized credential?**

CompTIA A+ is an industry recognized credential in the IT field. It is recognized as one of the very first certifications that prospective IT professionals should obtain. A+ validates enough general knowledge and skills about computers and networking to be competitive for entry level jobs in IT Desktop Support.

**This training is sponsored by a Department of Higher Education grant and is free to qualified individuals.**

Training will be intensive. Participants should have computer literacy skills: keyboarding, basic understand of computers and the internet. Participants should be available for all training sessions as well as paid experiential training aimed at becoming competitive for a summer internship.

CompTIA A+ Exam vouchers will be provided!

Interested? Email [cgordon@massbay.edu](mailto:cgordon@massbay.edu) for an interview
