Corporate Partnerships and Workforce Development

Want to learn about cyber security and earn an industry recognized credential?

CompTIA Security+ is an industry recognized credential in the IT field. It is one of the key certifications that prospective IT professionals interested in cyber security should obtain. Security+ focuses on the latest trends and techniques in risk management, risk mitigation, threat management and intrusion detection. Security+ incorporates best practices in hands-on trouble-shooting to ensure participants have practical security problem-solving skills.

This training is sponsored by a Department of Higher Education grant and is <u>free</u> to qualified individuals.

<u>Training will be intensive</u>. Participants should have computer literacy skills: keyboarding, intermediate understanding of computers and the internet, plus a problem solving aptitude. Participants should be available for all training sessions as well as paid experiential training aimed at becoming competitive for a summer internship.

CompTIA Security+ Exam vouchers will be provided!

Individuals who pass the Security+ exam will be eligible for "credit for prior learning" for MassBay course**: CS116 (Fundamentals of Cyber Security - 3 credits)**

Interested? Email: Cora Gordon, Project Director: cgordon@massbay.edu for an interview
