

MY IDENTITY

October 7 - 11

Who are you and how do you define yourself?

For many students, the college experience – courses, coursework, new environments, and exposure to faculty, staff, and your fellow students- is an opportunity to explore and question various pieces of your personal identity and how you exist in this world. We encourage you to dive into those explorations, and think about what parts of your identity matter most to you.

This week there will be multiple workshops and events dedicated to exploring and discussing various aspects of our students' identities. Whether you hold those pieces of identity personally or not, each workshop is a chance to learn about yourself and the world you live in.
